

User Guide
for
Android Client

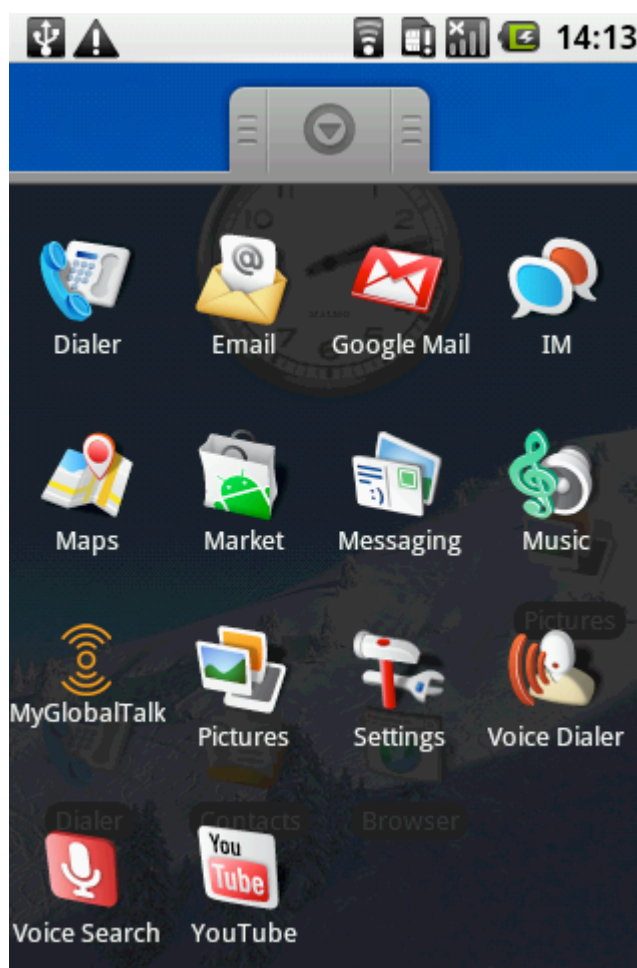

(Version 1.0)

Getting Started

Installation

Access to the Android MyGlobalTalk application is available on the Android Marketplace. Locate the Marketplace icon and open the Marketplace and enter "MyGlobalTalk" in the search field.

After installing the MyGlobalTalk application, the icon will be visible as shown below:

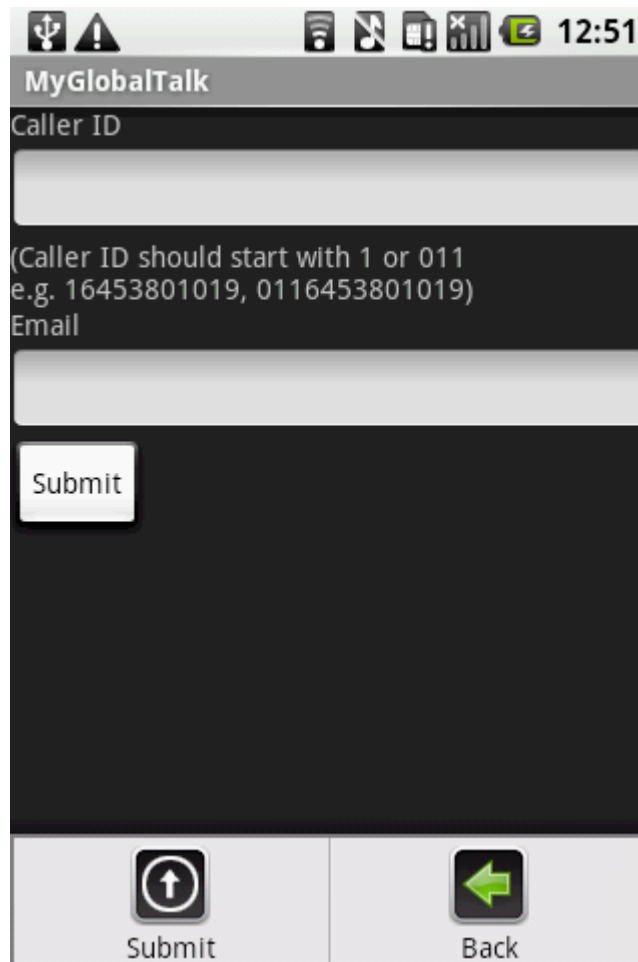

Uninstallation

To uninstall the MyGlobalTalk Application, Go to Settings on your Android phone
Select Settings>Applications>Manage applications.

Click on MyGlobalTalk item, then Click Uninstall and finally click the OK button when prompted.

Registration

To register on the device click on the MyGlobalTalk application icon to start the software and select Sign up button. Additional buttons are available by pressing the arrow key on your device.

The screenshot displays the registration interface for MyGlobalTalk. At the top, the status bar shows system icons and the time 12:51. Below the title bar, there is a 'Caller ID' text input field. A note below the field states: '(Caller ID should start with 1 or 011 e.g. 16453801019, 0116453801019)'. This is followed by an 'Email' text input field. A 'Submit' button is positioned below the email field. At the bottom of the screen, there are two large, prominent buttons: 'Submit' (with an upward-pointing arrow icon) and 'Back' (with a left-pointing arrow icon).

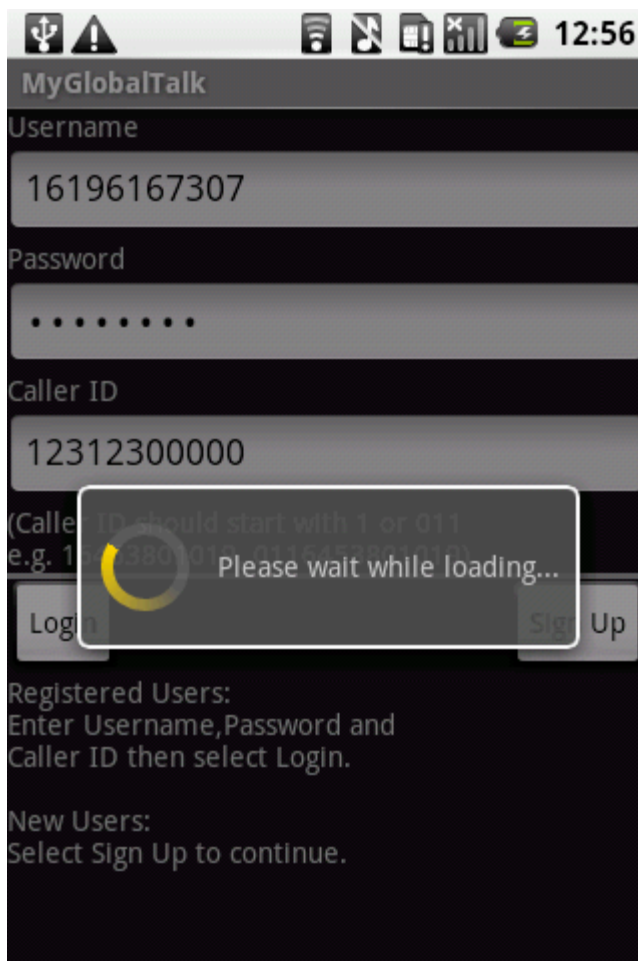

Enter your phone number and email address to register and then click on submit button.

(Your phone number should start with 1 or 011 as shown above)

Your new Username and password will be visible on the screen once you register. It will also be emailed to the email address you have provided. Make sure to write or save your login information for further use.

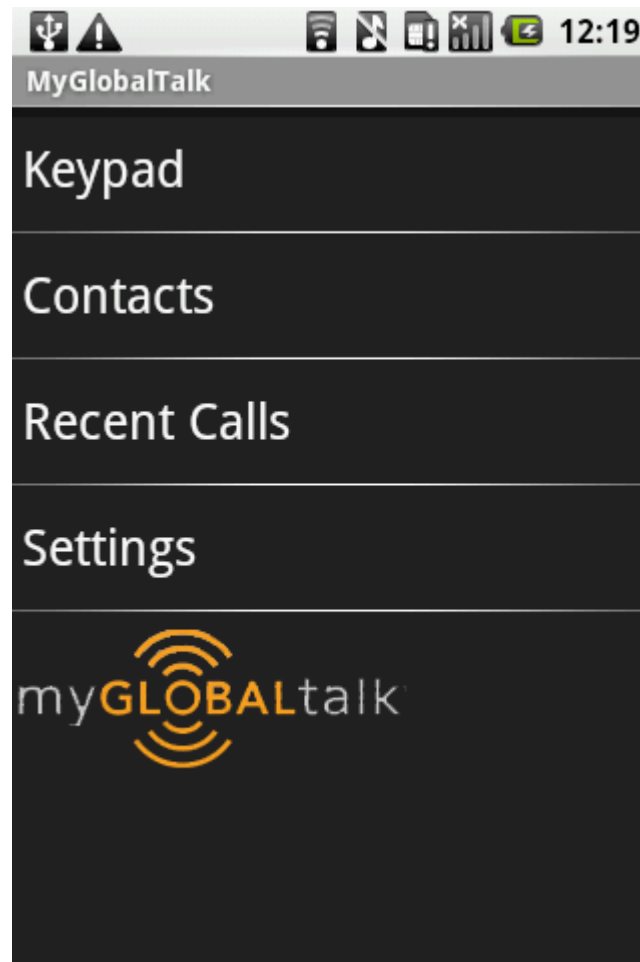

Login

If you have already registered with MyGlobalTalk, you can login with the username, password and Caller ID provided at the time of registration. The Caller ID can also be your Friend and family number (for more details visit MyGlobalTalk.com website or select the Manage Account & Search Rates link in Settings option).

Main Screen

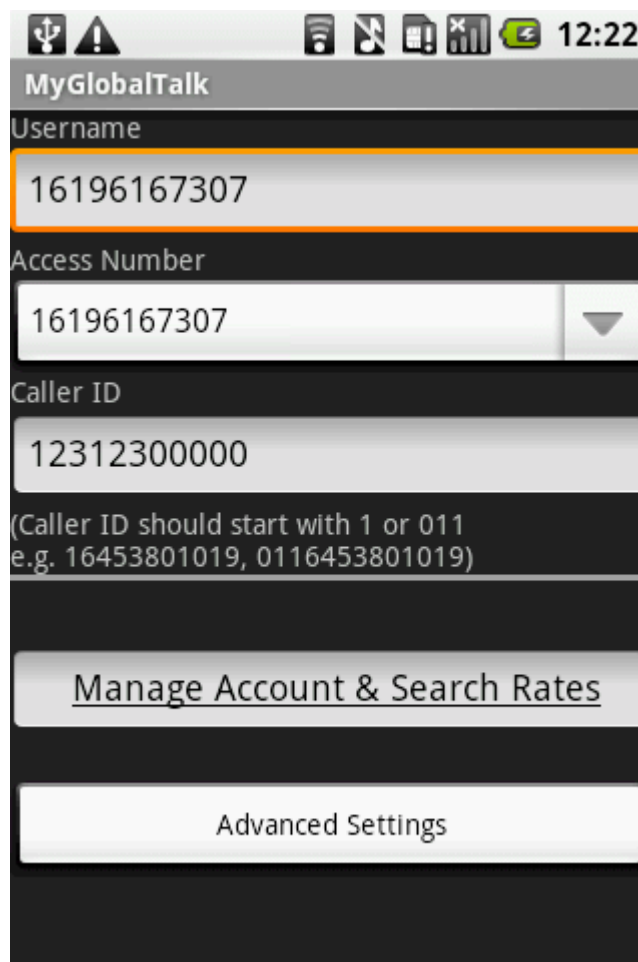

Once you have successfully logged into your MyGlobalTalk account using the application you will be taken to the main screen.

Settings

You can set your Caller-ID number under the settings menu. This is the number people will see when you call them.

You can also manage your account under "Manage Account & Search Rates."

The screenshot displays the settings interface for MyGlobalTalk. At the top, the status bar shows various icons and the time 12:22. The app title "MyGlobalTalk" is centered at the top of the screen. Below the title, there are three input fields: "Username" containing "16196167307", "Access Number" containing "16196167307" with a dropdown arrow, and "Caller ID" containing "12312300000". A note below the Caller ID field states: "(Caller ID should start with 1 or 011 e.g. 16453801019, 0116453801019)". At the bottom of the screen, there are two buttons: "Manage Account & Search Rates" and "Advanced Settings".

Access Number

You can select a particular access number (DID number) if multiple access numbers (DID numbers) are linked to your MyGlobalTalk account.

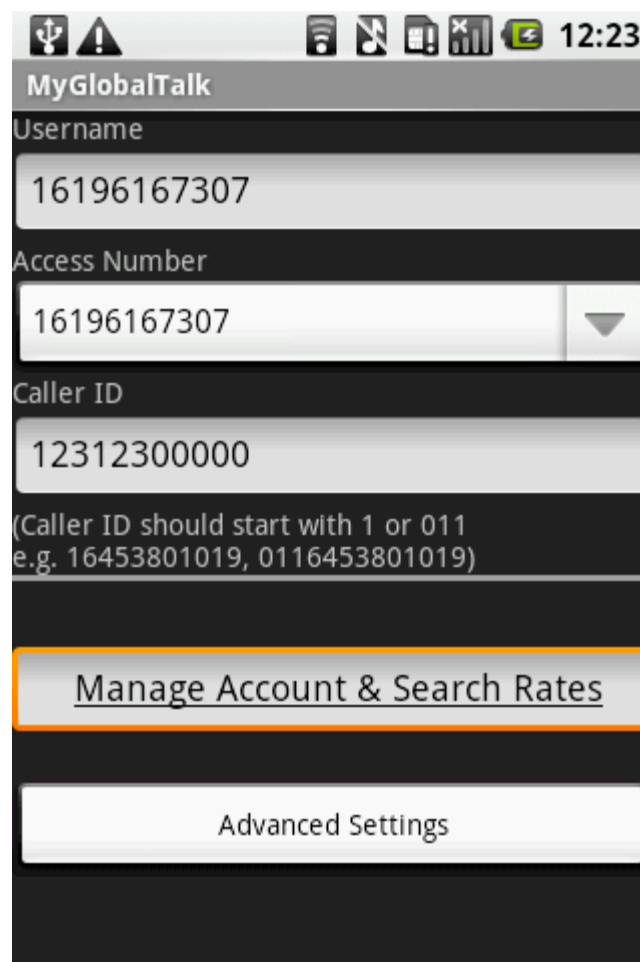

Caller ID

You can change the Caller-ID.

Do not leave the Caller-ID blank.

Manage Account & Search Rates

Select the Manage Account Option to manage your account, for example changing the password, adding funds, adding a friend or adding a family number.

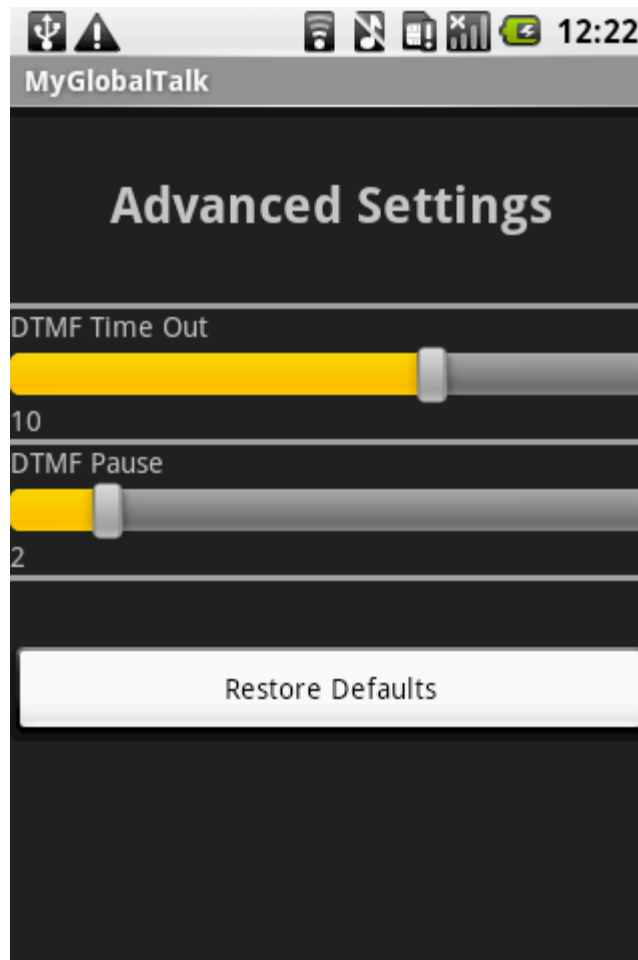

The screenshot shows the MyGlobalTalk mobile application interface. At the top, there is a status bar with various icons and the time 12:23. Below the status bar, the app title "MyGlobalTalk" is displayed. The interface contains several input fields: "Username" with the value "16196167307", "Access Number" with a dropdown menu showing "16196167307", and "Caller ID" with the value "12312300000". Below these fields, there is a note: "(Caller ID should start with 1 or 011 e.g. 16453801019, 0116453801019)". At the bottom of the form, there are two buttons: "Manage Account & Search Rates" (highlighted with an orange border) and "Advanced Settings".

You can also add a Call Forwarding number so that calls to your access number are correctly routed.

Advanced Settings

You can manually change the DTMF (Dial Tone) Time Out and DTMF (Dial Tone) Pause values.

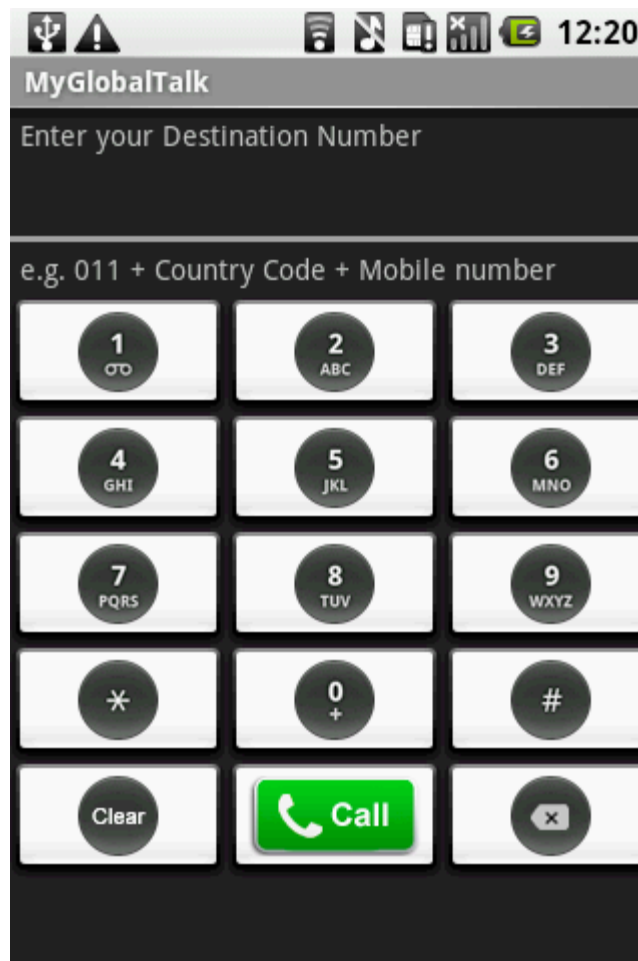

The default value for DTMF Time Out is 10 and default value for DTMF Pause is 2, as shown below:

Keypad

You can select the Keypad either by clicking the Keypad button or from the menu bar. Type in a phone number either by touching the keys on the screen or by pressing the keys on the phone's keypad

The keypad view is shown below:

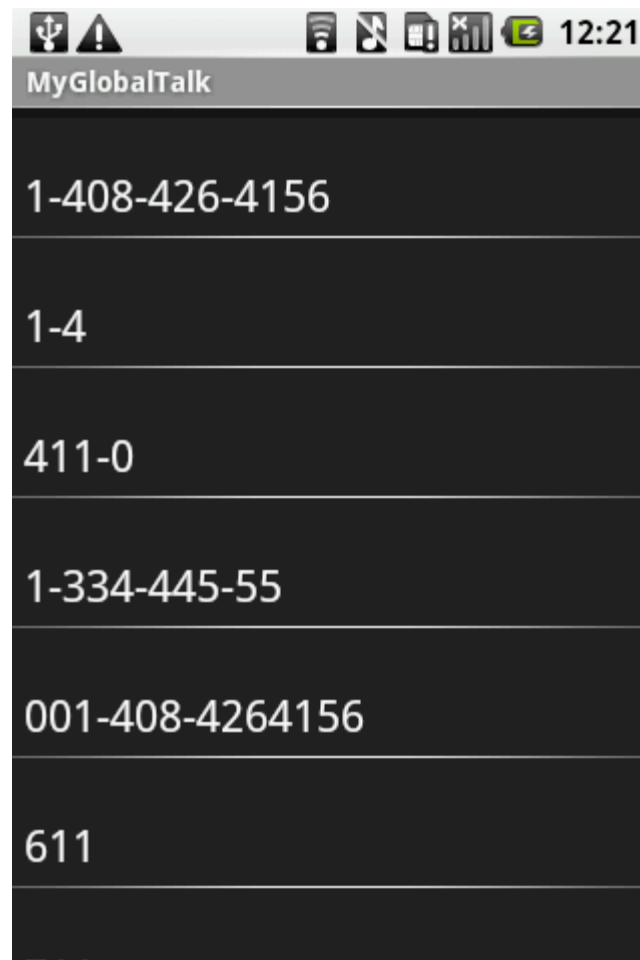

Contacts

You can select Contacts either by selecting the button or from the menu bar.

Contacts will show your Android phone contact list.

You can make a MyGlobalTalk call by clicking a particular contact name.

Recent Calls

You can view the Recent Calls list either by selecting the button or from the menu bar.

Recent Calls will show calls you recently dialed and the time they were made.

You can make a MyGlobalTalk call by selecting a particular Recent Call from the list either by touching an item or by scrolling through the list.

The Recent Calls screen is shown below:
